Typical gas compression/dehydration system

- Gas from MP separator
- Gas from LP separator
- Gas from oil dehydration
- HP Gas Compressor
- MP Gas Compressor
- LP gas booster compressor
- Gas metering
- Scrubber
- Regen
- Glycol contactor
- Filter separator
- Gas Dehydration
- Optional Gas Equipment:
  - Amine sweetening unit
  - JT dewpoint control
  - Refrigeration dewpoint control
  - MOL sieve/cryogenic LPG and NGL recovery
