

Drilling Systems

HOW TO USE THE MARKER

1. Go to slb.com/drilling and click on the link to download the app.
2. Download the DrillAR app to your iPad or iPhone.
3. Launch the DrillAR app.
4. Print out the target and place it on a flat surface.
5. Point your device's camera at the target. To get the most out of the experience, move your device side to side around the target. Be sure to keep at least a portion of the target within the camera's view at all times.
