<u>Title:</u>	Accept Shipment Tender BPP
<u>Transaction:</u>	NA
<u>System:</u>	OTM

## **Purpose**

Use this procedure to Accept a Tender in OTM. When a Carrier will receive a Tender Notification email, carrier will have to log into OTM and review the tender and accept this one.

*Please note that this training document uses sample training data and/or examples for demonstration purposes. In the production system you are using, you must enter/select the value(s) appropriate for your particular scenario where indicated.*

## **Trigger**

Once the carrier will accept the tender in OTM, this will trigger a freight order notification that will be the confirmation for the carrier that they can start arranging appointment with SLB. Also once carrier will accept the logistics processor will get an email too to be aware.

## **Prerequisites**

Shipment must be secure resources by logistics processor before carrier can accept the tender.

## **Transaction**
