

WORKING TOGETHER PERFORMING TOGETHER

Schlumberger ONLINE CONFERENCE

Registration is Open

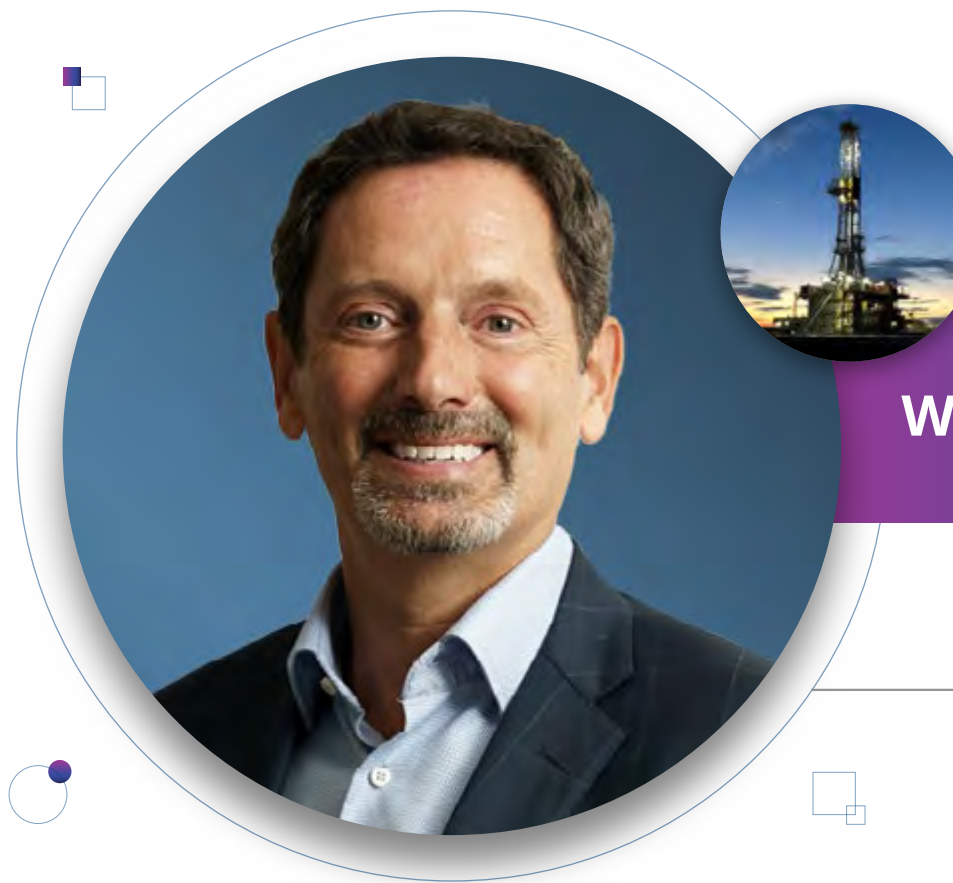

www.slbvirtualevents.com/registration

Plenary Available On-Demand

Starting at 6 a.m. GMT
Tuesday, 27 October–
Friday, 6 November 2020

PLENARY

On-demand panel discussions on relevant topics affecting our industry.

Welcome and Keynote

OLIVIER LE PEUCH

CEO

Digital Leadership—Expanding the Boundaries

DARRYL WILLIS

Vice President, Energy Industry, Microsoft

KEVIN CHAMBERS

Vice President, Subsurface, Chevron

MANISH CHAWLA

Global Managing Director, Energy, Resources, & Manufacturing, IBM

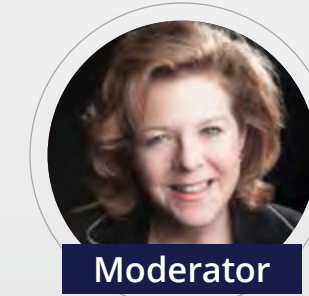

MICHAEL SHIRK

Manager, Enterprise and Lower 48 IT, ConocoPhillips

RAJEEV SONTHALIA

President, Digital & Integration

EITHNE TREANOR

Guest Moderator

Working Together, Performing Together

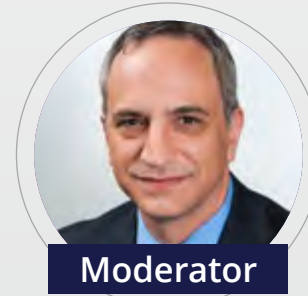

HINDA GHARBI

Executive Vice President, Services & Equipment

KHALED AL MOGHARBEL

Executive Vice President, Geographies

LEN VERMILLION

Editorial Director, Hart Energy
Moderator

Working for Mutual Value

SARAH GAY

Vice President Wells Gulf of Mexico, BP

DONNIE ROSS

President, Production Systems

CHAD HARKNESS

Customer Performance Program Manager
Moderator

COVID-19 Response

DAVID PAYNE

Vice President, HSE, Chevron

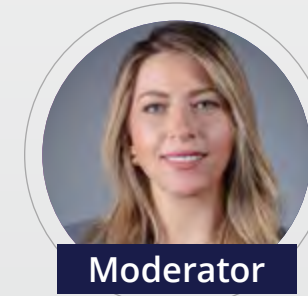

ABDELLAH MERAD

Executive Vice President, Performance Management

MOHAMED KERMOUD

Vice President, HSE

FARAH ABU-HIJLEH

Communication & Engagement Manager
Moderator

Guest panelists and moderators are included where noted. All other participants are executive leadership and representatives from Schlumberger.

Live Talks Sessions

Starting at 9 a.m. GMT
 Tuesday, 27 October–
 Thursday, 29 October 2020

LIVE TALKS

Live moderated panel discussions where you can submit your questions.
 Download the calendar reminders so you don't miss your topic of interest.

Tuesday, 27 October

Time	Topic	Calendar Download
9 a.m. GMT	Sealed by Schlumberger: Abandonment in the North Sea	Add to Calendar
1 p.m. GMT	Never Stop for Surveys—The Missing Link	Add to Calendar
3 p.m. GMT	Intervention Reinvented	Add to Calendar
5 p.m. GMT	Compressing the Learning Curve to Improve Unconventional Reservoir Economics	Add to Calendar
7 p.m. GMT	Reshaping Drilling Performance	Add to Calendar

Wednesday, 28 October

Time	Topic	Calendar Download
9 a.m. GMT	View From the Field: Digital Planning and Operations	Add to Calendar
1 p.m. GMT	Egypt Upstream Gateway	Add to Calendar
3 p.m. GMT	In Live Control of Your Operations Anywhere, Anytime	Add to Calendar
5 p.m. GMT	Optimizing Perforating: More Than Selecting Shaped Charges	Add to Calendar
7 p.m. GMT	Fugitive Emissions and Greenhouse Gas Management in Midstream	Add to Calendar

Thursday, 29 October

Time	Topic	Calendar Download
9 a.m. GMT	Intervention Reinvented—Learnings from a Mature Brown Field	Add to Calendar
11 a.m. GMT	Power Your Subsea Production and Achieve Full Asset Potential with Subsea Boosting	Add to Calendar
1 p.m. GMT	The Future of Autonomous Drilling	Add to Calendar
3 p.m. GMT	Stimulation–Optimized	Add to Calendar
5 p.m. GMT	Your Well Digital Health Check	Add to Calendar

Please note, due to upcoming seasonal clock changes, the time for live sessions refers to GMT only. The calendar files will automatically account for these changes and align to the time zone set on your device.

Living Digital Booth Live Sessions

Starting at 8 a.m. GMT
Tuesday, 27 October–Friday, 30 October 2020

Other Booths Available On-Demand

Starting at 6 a.m. GMT
Tuesday, 27 October–Friday, 6 November 2020

Live, Moderated Chat

12 p.m. – 4 p.m. GMT and 11 p.m. – 3 a.m. GMT
Tuesday, 27 October–Friday, 30 October 2020

SHOWROOM

Visit our booths at our exhibition-style hall to explore spotlight technologies, interactive 3D models, live talks, and Q&A sessions.

Booth	Description	
Living Digital <i>Daily themed sessions with live Q&A</i>	Digital Transformation for an Efficient and Sustainable Industry	Tuesday, 27 October
	The Evolution of Subsurface Characterization	Wednesday, 28 October
	Delivering a New Era in Drilling and Well Construction	Thursday, 29 October
	Next-Generation Production Operations: Integrating Edge, Cloud, and Enterprise Solutions	Friday, 30 October
Connecting Your Operations to Perform—Anytime, Anywhere	Digital, collaborative services enabling safer and more efficient live operations through borderless access to expertise—anytime, anywhere.	
Intervention Reinvented	Reinvent your intervention with technologies that help you produce more with lower cost and reduced risk, sustainably.	
Helping You Reduce Environmental Impact	Explore new technologies that improve reservoir understanding and maximize production while reducing your environmental impact.	
Reshaping Drilling Performance	Learn about the latest Smith Bits addition to the Blade family of unique cutting element bits that significantly increases cutting efficiency and improves drilling performance.	
Never Stop for Surveys—The Missing Link	Learn about the latest innovation in drilling, improving on-bottom time, reducing drilling risks, and adding accuracy to your wellbore trajectory.	
Oilfield Marketplace	Browse. Purchase. Repeat. Whether you're a buyer or a seller, commercial efficiency is just a few clicks away at theOFMP.com .	

Please note, due to upcoming seasonal clock changes, the time for live sessions refers to GMT only. The calendar files will automatically account for these changes and align to the time zone set on your device.

Living Digital Booth Live Sessions

Starting at 8 a.m. GMT
Tuesday, 27 October–
Friday, 30 October 2020

Please note, due to upcoming seasonal clock changes, the time for live sessions refers to GMT only. The calendar files will automatically account for these changes and align to the time zone set on your device.

SHOWROOM: LIVING DIGITAL THEATRE

Daily themed sessions with live Q&A. Download the calendar reminders so you don't miss your topic of interest.

Tuesday, 27 October | Digital Transformation for an Efficient and Sustainable Industry

Time	Topic	Calendar Download
8 a.m. GMT	Supporting the Global Energy Transition with Digital Solutions	Add to Calendar
11 a.m. GMT	Digital Transformation Acceleration for All: Schlumberger, IBM and, Red Hat Hybrid Cloud Collaboration for the Energy Industry	Add to Calendar
2 p.m. GMT	Deployment: Transition to Cloud with Modern Data Management Capabilities	Add to Calendar
5 p.m. GMT	DELFI Data Science AI, We're All In	Add to Calendar
8 p.m. GMT	Digital Transformation in Action: Chevron's Journey to the DELFI Environment through collaboration with Schlumberger and Microsoft	Add to Calendar

Wednesday, 28 October | The Evolution of Subsurface Characterization

Time	Topic	Calendar Download
6 a.m. GMT	Increase the Potential for Enterprise Data Discovery, Integration, and Value Extraction with GAIA Platform	Add to Calendar
8 a.m. GMT	Agile Field Development Planning with FDPlan	Add to Calendar
10 a.m. GMT	Evergreen Exploration Evaluation and Planning: Equinor and Schlumberger Collaboration with ExplorePlan	Add to Calendar
12 p.m. GMT	Accelerated Reservoir Modeling - Collapsing Cycle times for Optimizing Field Development Scenarios	Add to Calendar
2 p.m. GMT	The Launch of the Petrotechnical Suite in the DELFI Environment on Microsoft Azure	Add to Calendar
4 p.m. GMT	Realizing the Value of Ocean Bottom Nodes for Subsurface Characterization Fast-Turnaround Time-Lapse Ocean Bottom Seismic Processing Enabled by Up-Down Deconvolution Reduce Uncertainty in Complex Subsurface Scenarios with Effective Internal Multiple Attenuation	Add to Calendar
6 p.m. GMT	Enhanced Full-Waveform Inversion in Earth Model Building Least-Squares Migration: Handling Illumination in Complex Geological Settings	Add to Calendar
8 p.m. GMT	eNode Land Seismic Solution: Paving the Path for Ultrahigh-Density Seismic Data in the Permian Basin Setting New Standards for High-Density Seismic Acquisition in the Permian Basin	Add to Calendar
10 p.m. GMT	Enhancing Unconventional Reservoir Characterization with Seismic Data Increase Your Success in Unconventional Reservoirs with Seismic Engineering	Add to Calendar
12 a.m. GMT	Accelerating Seismic Processing	Add to Calendar

**Living Digital Booth
Live Sessions**

Starting at 8 a.m. GMT
Tuesday, 27 October–
Friday, 30 October 2020

SHOWROOM: LIVING DIGITAL THEATRE

Daily themed sessions with live Q&A. Download the calendar reminders so you don't miss your topic of interest.

Thursday, 29 October | Delivering a New Era in Drilling and Well Construction

Time	Topic	Calendar Download
8 a.m. GMT	How Tripping Connections Improvements Lead to Months of Savings	Add to Calendar
11 a.m. GMT	Consistency and Efficiency Gains with DrillOps Automate	Add to Calendar
2 p.m. GMT	Well Integrity Management Solution Built on Wellbarrier Solution	Add to Calendar
5 p.m. GMT	Collaborative Well Planning with DrillPlan	Add to Calendar
8 p.m. GMT	Driving Drilling Performance through Remote Decision Support	Add to Calendar

Friday, 30 October | Next Generation Production Operations: Integrating Edge, Cloud and, Enterprise Solutions

Time	Topic	Calendar Download
8 a.m. GMT	Multiphase Flow Simulation to Design, Operate and Optimize your Asset with OLGA and PIPESIM Simulators	Add to Calendar
11 a.m. GMT	Right-sizing Field Production to Meet Demand with PIPESIM Simulator	Add to Calendar
2 p.m. GMT	Tuning Production Operations with the ProdOps Solution	Add to Calendar
5 p.m. GMT	Edge AI and Automated Control for Well Optimization with Agora and Sensia in Ecuador	Add to Calendar
8 p.m. GMT	Delivering Optimized Facility Planning and Operations with Symmetry	Add to Calendar

Please note, due to upcoming seasonal clock changes, the time for live sessions refers to GMT only. The calendar files will automatically account for these changes and align to the time zone set on your device.

Breakout Sessions Available On-Demand

Starting at 6 a.m. GMT
 Tuesday, 27 October–
 Friday, 6 November 2020

Live, Moderated Chat

12 p.m. – 4 p.m. GMT
 11 p.m. – 3 a.m. GMT
 Tuesday, 27 October–
 Friday, 30 October 2020

BREAKOUT SESSIONS

Unlimited access to bite-sized technology updates in three themed, on-demand tracks. Learn at your own pace and get your questions answered through our moderated chat.

Advance Your Drilling Performance

RheoProfiler
 Automated rheometer

Optimizing Drilling Performance Through Rapid Data Analytics at the Bit

SCREEN PULSE
 Fluid and cuttings separator

NeoSteer At-Bit Steerable System
 A new category in steering technology

TerraSphere
 High-definition dual-imaging-while-drilling service

FlairFlex
 Advanced real-time fluid logging and analysis service

Cameron Pressure Control
 Building on a century of performance

Accelerate Your Production

Monitor and Operate Your Production Trees from Anywhere
 Electric actuation for unmanned platforms

Fugitive Emissions Compliant Valves
 Protecting people, assets, and the environment—taking action against emissions, confidently

Collaborate Early to Accelerate and Optimize Your Subsea Development
 Agile field development service

Optimize Investment. Maximize Returns.
 Agile subsea production systems

Recover More of Your Production from a Single ESP
 Extend your ESP reliability and operating range

Remedial Services
 Repair, replace, restart.

Maximize Your Reservoir Performance

Symphony Live Downhole Reservoir Testing
 Conduct with confidence

Thrubit Through-the-Bit Logging Services
 A new approach to wireline logging

OpenPath Stimulation Services
 The most efficient path to your carbonate reservoir

Schlumberger Reservoir Laboratories
 A cost-effective hybrid look at your formation

Productivity Enhancement Research Facility (PERF)
 Power your productivity

XR-Perf Expanded-Range Wireline Perforating System
 Redefine your limits
