Contents

4.  Isometric Sampling: The Next Milestone in Integrated 3D Marine Seismic (Offshore Engineer Nov. 2013)

6.  Crossline Wavefield Reconstruction from Multimeasurement, Towed Marine Seismic Data and Its Implications for Imaging (EAGE 2013, Th-08-15)

10. A Field Trial of a Multi-Sensor Broadband Seismic Streamer at the Oseberg Field (EAGE 2013, co-authored with Statoil)

14. Reconstruction of the Subsurface Reflected Wavefield on a Dense Grid from Multicomponent Streamer Data (EAGE 2012, B042)

18. Imaging Black Pond – First Broadband Circular Shooting Survey in Malaysia with Simultaneous Deployment of Two Advanced Acquisition Techniques (SEG 2013, co-authored with Petronas)

22. How New Data Acquisition Technique Can Complement Full Waveform Inversion and Lead to Improved Subsalt Imaging (OTC 2013, 24141)

26. Full Waveform Inversion Around the World (EAGE 2013, We-11-03)

// Challenge: defining complex structures and prospects
